

## *The perfect Dutch wedding item* *Meet the art clogs by Liesbeth Oudshoorn*

### *Connecting two worlds*

Melissa and her fiancé were looking for an original way to honor their cultural backgrounds at their wedding. She's from Singapore, he's from the Netherlands. What better way to connect these two worlds than through customized art on a famous Dutch icon? Melissa was happy to share her review with us: "Great to create more awareness for such fine art!"

Dear Liesbeth,  
I received the clogs this morning, they are very very beautiful. I loved it, you're a real talent! I am so glad that I found you on the website, your works are already love at first sight for me and now I received a pair customised for myself. I felt so close to my heart, I am really very touched and happy. All the details are according to my wishes. Thank you so much!

My mum commented that the clogs are very beautiful too, I can't wait to display them at my wedding. It will definitely contribute to the wedding party and I'm sure they will wow my invited guests. Love, Melissa
